Sri Lankan Natural

I love Healing Rose Water
Rose water is a natural toner that helps regulate the sebum secretion, balance the pH level of the skin, and tighten the pores. It also helps to even out the skin tone, reduce redness, and soothe skin irritation. It is a natural way to keep your skin hydrated & healthy! It is a staple in my skincare routine. I use it after cleansing my face and before moisturizing. It helps my skin feel hydrated & healthy! It is a staple in my skincare routine. I use it after cleansing my face and before moisturizing.
