What a great place. Location was perfect. The only thing I would do is change the wall to wall. With the high traffic I had coming and going I had my husband bring up rug cleaner and did a quick maintenance to those areas. But all and all I loved it. My bed was comfy I stayed on lower level. You can see all the changes happening to chalet. Hopefully new slider will go in on other side as we could of used the slight breeze on those few nights it blew.
